Subject: Bin 8 Order book Realignment

Last year the ISE introduced a multiple order book structure that provides each BIN With additional capacity.

Recently, ISE has identified Bin 8 as approaching its capacity thresholds and as a result we will introduce a third order book to provide additional capacity.

Effective Tuesday, April 18, 2006, the ISE will distribute all underlying products associated to Bin 8 across order books 8, 18 and 28 according to the list below:

**BIN 8 Underlying Assignments**

Orderbook 18					Orderbook 8				
BNI	MHH	NUE	SU	XTO	ACL	BMET	CZX	IRF	SUB
