**Subject: OSI Consolidation Second Event**

This notice is to remind members of the upcoming Option Symbology Initiative (OSI) Consolidation Event effective for April 12, 2010.

This event will consist of a group of 523 ISE listed products and 18 additional ISE synthetic underlyings (resulting from prior corporate actions). The consolidation process will combine multiple option symbols (including LEAPS, wraps, and quarterlies) into one root symbol. In most instances, that root symbol will match the underlying symbol.

Below is a link to the symbols specifically listed on the ISE that will be impacted by this event.

<http://www.ise.com/assets/documents/OptionsExchange/misc/ISE%20Listed%20Second%20Consolidation.xls>

For the full list of products being consolidated, please view the OCC Symbology Implementation page at <http://www.theocc.com/initiatives/symbology/implementation.jsp>.

**All GTC orders associated with these products will be deleted after the close on Friday, April 9.**

For any further questions regarding consolidation please call Mark Grinbaum at 212-897-0255 or me at the number provided above.
