Market Information Circular

Circular number:	2010-45	Contact:	Market Operations
Date:	August 6, 2010	Telephone:	1-877-473-9989

The purpose of this Market Information Circular (MIC) is to inform members of an **optional** PrecISE upgrade. The new version, 4.1.1, will be available on the ISE's website after the close on Friday August 6th.

PrecISE Enhancements

New Features Include:

'Step Up and Match': Facilitation, Spread Facilitation, Spread With Stock Facilitation, and PIM orders can be entered with a step up price. This provides the contra side with the opportunity to increase their participation in the crossing order. The contra order will automatically match the size and price of responses up to the indicated step up price.

The 'Step Up and Match' feature will be available August 23, 2010.

Install Instructions

Smart-Updater users will automatically be upgraded to PrecISE 4.1.1 on Monday August 9th. No action is required.

Stand-Alone users should follow the instructions below:

- Remove all previous versions of PrecISE from your computer.
- Go to <http://www.ise.com/login>. Type "precise" in the name and password fields.
- The new version number of PrecISE is 4.1.1

Logging in After Install

Below are the regularly used host numbers:

- Primary Host: 209.140.121.190
- Host for Internet Connections: precise.iseoptions.com or 64.95.40.50
- Connections through Radianz: 206.190.99.61

Additional Information

An installation and technical guide can be found upon download in the Member Login section of ISE's Website. Members can also call Market Operations for further assistance: 1-877-473-9989.
