ISE today began trading Citigroup Global Markets Holding Inc., 2% Principal-Protected Equity Linked Notes based upon the Dow Jones Industrial Average. Ten million shares of the new security were issued at \$10 each with a maturity date of December 29, 2009.

As more fully set forth in the Issuer's Prospectus and Prospectus Supplement (SEC Registration #333-106272), the aforementioned security will bear interest at a rate of 2% per annum, paid in cash semi-annually. The notes are not subject to redemption at the option of the holder prior to maturity.

At maturity, investors will receive a cash payment equal to the sum of \$10 plus an interest distribution amount based on the monthly returns of the Dow Jones Industrial Average, with each such monthly return subject to a periodic appreciation cap of 4%. The Interest distribution amount will be based on the monthly return of the Dow Jones Industrial Average during the term of the Notes and will not be less than zero.

The Starting Value for the index is 10,181.74, the closing value of the DJIA on the pricing date.

Since all potential payments, (whether of coupon or principal) to the holders of these Notes, are the sole responsibility of the Issuer, it is the creditworthiness of Citigroup Global Markets Holdings Inc. that stands behind PPN.

The Notes combine features of equity and debt. Over the term of the Note, investors will receive a fixed rate of interest and principal protection as well as the opportunity to benefit from the underlying index, should said index perform favorably over the term of the Note.

Member and member organizations should advise purchasers that the securities represented in the underlying index are not involved in the subject offering and have no obligation with respect to these securities whatsoever, including any obligations with respect to the principal amount to be paid at maturity, or to take the needs of the Issuer or holders into consideration. The notes are a series of unsecured debt issued by Citigroup Global Markets Holdings Inc. and will be issued in book-entry form. The Trustee for the securities is *The Bank of New York*.

The market value of PPN will depend substantially on the value of the Dow Jones Industrial Average. Other factors that will likely affect the trading value of PPN are changes in interest rates, volatility of the Index, time remaining to maturity, the credit rating of the Issuer and dividend yields on the stocks comprising the Index.

Information concerning taxation may be found in the Prospectus.

The notes will be quoted and trade as an equity issue in round lots of 100, and will trade "flat" without accrued interest.
