Subject: Bank of America Leveraged Index Return Notes based on the S&P 500 Index

Background Information on the Securities

As more fully explained in the Prospectus Supplement (333-158663), the Leveraged Index Return Notes linked to the S&P 500 Index due June 1, 2012 (the "Notes") are senior, unsecured debt securities of Bank of America Corporation ("BAC") and are not guaranteed or insured by the Federal Deposit Insurance Corporation ("FDIC") or secured by collateral. The Notes will rank equally with all of BAC's other unsecured and unsubordinated debt, and any payments due on the Notes, including any repayment of principal will be subject to the credit risk of BAC. The Notes provide a leveraged return for investors if the level of the S&P 500 Index (the "Index") increases from the Starting Value of the Index, determined on May 27, 2009, the date the Notes were priced for initial sale to the public (the "Pricing Date"), to the Ending Value of the Index, determined during the Maturity Valuation Period. Investors must be willing to forego interest payments on the Notes and be willing to accept a repayment that is less, and potentially significantly less, than the Original Offering Price of the Notes.

For additional information regarding the Notes, including the applicable risk factors, please consult the Prospectus Supplement, filed with the Securities and Exchange Commission by BAC.

Exchange Rules Applicable to Trading in the Notes

The Notes are considered equity securities, thus rendering trading in the Notes subject to the Exchange's existing rules governing the trading of equity securities.

Trading Hours

Trading in the Notes on ISE is on a UTP basis and is subject to ISE equity trading rules. The Notes will trade from 8:00 a.m. until 8:00 p.m. Eastern Time. Equity EAMs trading the Notes during the Extended Market Sessions are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value ("IIV"). For certain derivative securities products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Extended Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during

Extended Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Extended Market hours may be at a disadvantage to market professionals.

Trading Halts

ISE will halt trading in the Notes in accordance with ISE Rule 2101(a)(2)(iii). The grounds for a halt under this Rule include a halt by the primary market because it stops trading the Notes and/or a halt because dissemination of the IIV or applicable currency spot price has ceased, or a halt for other regulatory reasons. In addition, ISE will stop trading the Notes if the primary market de-lists the Notes.

Delivery of a Prospectus

Pursuant to federal securities laws, investors purchasing Notes must receive a prospectus prior to or concurrently with the confirmation of a transaction. Investors purchasing Notes directly from the Fund (by delivery of the Deposit Amount) must also receive a prospectus.

Prospectuses may be obtained through the Distributor or on the Fund's website. The Prospectus does not contain all of the information set forth in the registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to the Trust's registration statement.

This Regulatory Information Circular is not a statutory Prospectus. Equity EAMs should consult the Trust's Registration Statement, SAI, Prospectus and the Fund's website for relevant information.

Appendix A

Ticker	Fund Name
SZE	Leveraged Index Return Notes Linked to the S&P 500 Index, due on June 1, 2012
