Subject: Merrill Lynch Capped Leveraged Index Return Notes Linked to the S&P 500

Background Information on the Security

As more fully set forth in the Prospectus Supplement, the Merrill Lynch & Co., Inc. (“Merrill Lynch”), the Capped Leveraged Index Return Notes Linked to the S&P 500 Index due April 5, 2010 (the “Notes” or “Securities”) are senior, unsecured debt securities of Merrill Lynch that provide a leveraged return for investors, subject to a cap, if the level of the S&P 500 Index (the “Index”) increases moderately from the starting value of the Index, to the ending value of the Index determined on calculation days shortly prior to the maturity date of the Notes, as described in the Prospectus. The Notes will not pay interest, the repayment of the Notes is capped, and may pay an amount less, and potentially significantly less, than the original public offering price of the Notes. For additional information regarding the Securities, including the applicable risk factors, please consult the Prospectus Supplement, filed with the Securities and Exchange Commission by Merrill Lynch on October 2, 2007.

Exchange Rules Applicable to Trading in the Shares

The Shares are considered equity securities, thus rendering trading in the Shares subject to the Exchange’s existing rules governing the trading of equity securities.

Trading Hours

Trading in the shares on ISE is on a UTP basis and is subject to ISE equity trading rules. The shares will trade from 8:00 a.m. until 8:00 p.m. Eastern Time. Equity EAMs trading the shares during the Extended Market Sessions are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value (“IIV”). For certain derivative securities products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Extended Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during Extended Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Extended Market hours may be at a disadvantage to market professionals.

Trading Halts

ISE will halt trading in the Shares of a Trust in accordance with ISE Rule 2101(a)(2)(iii). The grounds for a halt under this Rule include a halt by the primary market because it stops trading the Shares and/or a halt because dissemination of the IIV or applicable currency spot price has ceased, or a halt for other regulatory reasons. In addition, ISE will stop trading the Shares of a Trust if the primary market de-lists the Shares.

Delivery of a Prospectus

Pursuant to federal securities laws, investors purchasing Shares must receive a prospectus prior to or concurrently with the confirmation of a transaction. Investors purchasing Shares directly from the Fund (by delivery of the Deposit Amount) must also receive a prospectus.

Prospectuses may be obtained through the Distributor or on the Fund's website. The Prospectus does not contain all of the information set forth in the registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to the Trust's registration statement.

This Regulatory Information Circular is not a statutory Prospectus. Equity EAMs should consult the Trust's Registration Statement, SAI, Prospectus and the Fund's website for relevant information.
