Information on the Notes

Merrill Lynch & Co., Inc. (the "Issuer") has issued Strategic Return Notes ("Notes") linked to the Merrill Lynch Factor Model (the "Index"). The Notes were priced at \$10 each and mature on December 06, 2012. The Notes are not principal protected.

Strategic Return Notes Linked to the Merrill Lynch Factor Model are senior unsecured debt of Merrill Lynch & Co., Inc. There will be no payments on the Notes prior to maturity unless exchanged at the option of the investor for a cash payment during and including the 1st to the 15th day of November in each year from 2008 through 2011.

The Merrill Lynch Factor Model seeks to emulate the performance of the HFRI Fund Weighted Composite Index, a hedge fund industry benchmark. The Model is composed of six Model Factors, which are the S&P 500 Total Return Index, U.S. Dollar Index, MSCI EAFE IS Dollar Net Total Return Index, MSCI Emerging Market Free US Dollar Net Total Return Index, Russell 2000 Total Return Index, and one-month USD LIBOR.

At maturity, or upon exchange, investors will receive a cash amount equal to the Redemption Amount based upon the percentage change in the level of the Factor, less an annual index adjustment factor of 1.0%, over the term of the Notes. The level of the Merrill Lynch Factor Model must increase by 1% in order to receive at least the \$10 original public offering price per unit on the maturity date or upon exchange. If the level of the Merrill Lynch Factor Model has declined or has not increased sufficiently, one will receive less, and possibly significantly less, than the \$10 original public offering price per unit.

The Redemption Amount per Unit will be equal to:

$$\mathbf{\$9.90 * (Ending Value/Starting Value)}$$

The Starting Level of the Merrill Lynch Factor Model equals: 1,578.67

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

The Trustee for the securities is The Bank of New York.
