

Information Circular: Credit Suisse Group ELEMENTS

To: Head Traders, Technical Contacts, Compliance Officers, Heads of ETF Trading, Structured Products Traders

From: PHLX Listing Qualifications Department

Index-Linked Notes	Symbol	CUSIP
ELEMENTS MLCX Livestock Index - Total Return ETN	LSO	22542D605

Information on the Notes

Credit Suisse Group (the "Issuer") has issued ELEMENTS Exchange-Traded Notes ("ELEMENTS" or "Notes") linked to the MLCX Livestock Index - Total Return (the "Index"). The Notes were priced at \$10 each and mature on April 10, 2023.

The ELEMENTS are a series of debt securities of the Issuer that provide for a cash payment at maturity or upon earlier repurchase at the holder's option, based on the performance of the Index subject to the adjustments described below. The original issue price of each Note will be \$10. The Notes will not have a minimum principal amount that will be repaid and, accordingly, payment on the Notes prior to or at maturity may be less than the original issue price of the Notes. In fact, the value of the Index must increase for the investor to receive at least the \$10 principal amount per Note at maturity or upon repurchase. If the value of the Index decreases or does not increase sufficiently to offset the investor fee (described below), the investor will receive less, and possibly significantly less, than the \$10 principal amount per Note. In addition, holders of the Notes will not receive any interest payments from the securities. The ELEMENTS are not callable.

Holders will receive a cash payment at maturity equal to the initial issue price of the Notes times the index factor on the Final Valuation Date (as defined below) times the fee factor on the Final Valuation Date. The "index factor" on any given day will be equal to the closing value of the Index on that day divided by the initial index level. The "initial index level" is the closing value of the Index on the date of issuance of the Notes and the "final index level" is the closing value of the Index on the Final Valuation Date. The investor fee will be equal to 0.75% per year times the principal amount of holders' Securities times the index factor, calculated on a daily basis in the following manner: The fee factor on the date of issuance will equal zero. On each subsequent calendar day until maturity or early repurchase, the investor fee will increase by an amount equal to 0.75% times the principal amount of holders' Notes times the index factor on that day (or, if such day is not a trading day, the index factor on the immediately preceding trading day) divided by 365.

Prior to maturity, holders may, subject to certain restrictions, choose to offer their Notes for repurchase by the Issuer on any repurchase date during the term of the Securities. An offer of at least \$2,500,000 principal amount of ELEMENTS to the Issuer is required for repurchase

on any repurchase date. On the repurchase date, the Issuer will repurchase the holder's ELEMENTS and deliver a cash payment in an amount equal to the weekly repurchase value, which is the principal amount of the holder's ELEMENTS times the index factor times the fee factor.

A repurchase date is the 3rd business day following a valuation date. A valuation date is each trading day from April 10, 2008 to April 3, 2023 inclusive, unless the calculation agent determines that a market disruption event exists.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

Trading in the Notes on PHLX's PSX system is on a UTP basis and is subject to PHLX rules. The Notes will trade on PSX from 9:00 a.m. until 5:00 p.m. Eastern Time. For trading during PSX's Pre-Market and Post-Market Sessions, market participants should note that additional risks may exist with respect to trading the Notes during these sessions, when the underlying index's value or similar value may not be disseminated.

PHLX will halt trading in the Notes in accordance with PHLX Rule 3100. The grounds for a halt under these rules include a halt by the primary market because the value of the underlying index or a similar value is not being disseminated as required, or a halt for other regulatory reasons. In addition, PHLX will also stop trading the Shares Notes if the primary market de-lists the Notes.

Members and member organizations recommending transactions in the Notes to customers should make a determination that the recommendation is suitable for the customer, as provided by PHLX Rule 763.

PSX members and member organizations also should review NASD Notice to Members 03-71 for guidance on trading these products. The Notice reminds broker-dealers of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

This Information Circular is not a statutory prospectus. PHLX members and member organizations should consult the registration statement or prospectus for the Notes for additional information.
