BACKGROUND INFORMATION ON THE FUND

The Northern Lights Fund Trust IV (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"), consisting of several investment portfolios. This circular relates only to the Sage ESG Intermediate Credit ETF (the "Fund"). Sage Advisory Services LTD Co. (the "Adviser") serves as the investment adviser to the Fund. The shares of the Fund are referred to herein as "Shares."

The Fund seeks to replicate investment results that generally correspond, before fees and expenses, to the performance of the Sage ESG Intermediate Credit Index (the "Index").

The Fund generally will invest at least 80% of its total assets in the component securities of the Index. The Index consists of corporate bonds selected from the Barclays Capital U.S. Intermediate Credit Bond Index that meet Environmental, Social and Governance (ESG) criteria jointly developed by the Adviser and Sustainalytics. Sustainalytics, based in London, England, is a global leader in ESG and Corporate Governance research and ratings.

The index provider, which is the Adviser, an affiliate, created and maintains the Index by using the Sage/Sustainalytics proprietary framework to assign each issuer of bonds in the Barclays Capital U.S. Intermediate Credit Bond Index an ESG score from 1 to 100. To measure corporate sustainability, a set of environmental, social, and governance indicators specific to the industry of the respective issuer are scored. A score from 0 to 100 is given to each indicator. The ESG score is determined by the weighted sum of the indicator scores for a particular issuer. To be eligible for inclusion in the Index, an issuer must have a minimum overall ESG score of 50 and must rank in the top third of its peer group. Additionally, each issuer must have a Controversy Score of no higher than 3 (out of 5) and must meet certain other proprietary conditions specific to each industry group. Indicators of controversy for a company are analyzed and given a Controversy Score. The indicators that are analyzed are: News regarding a company that may pose ESG risks for the company; Incidents of

misconduct with ESG implications by a company; Events, which are a set of incidents that refers to one ESG issue; and Controversies, which are a set of Events under one ESG topic.

The Index is constructed using a rules-based methodology and consists of investment grade domestic and U.S. dollar denominated foreign credit bonds that meet the criteria described above, representing each industry sector in proportion to the sectors that make up the Barclays Capital U.S. Intermediate Credit Bond Index. The bonds in the Index are also consistent with the duration (which, as of June 30, 2017, was 4.3 years), maturity (which, as of June 30, 2017, was 4.84 years) and yield curve positioning in the Barclays Capital U.S. Intermediate Credit Bond Index. Duration is a measure used to determine the sensitivity of a security's price to changes in interest rates. The longer a security's duration, the more sensitive it will be to changes in interest rates. A yield curve is a representation on a chart of the yields on bonds with identical credit ratings but different maturities. The process results in the Index, as well as the Fund, consisting primarily of corporate bonds that display strong fundamentals and positive ESG characteristics.

The index provider expects that the Index will have approximately 120 issues. The components of the Index, and the degree to which these components represent certain industries, are likely to vary over time.

The Index subscribes to the philosophy that companies with more sustainable corporate policies will keep pace with non-ESG portfolios while promoting positive ESG characteristics. Companies with high ESG scores are better actors both environmentally and fiscally, and financial benefits should accrue to bondholders over time by holding companies with the highest standards relative to ESG factors.

The Adviser uses a representative sampling indexing strategy to manage the Fund. "Representative sampling" is an indexing strategy that involves investing in a representative sample of securities that collectively has an investment profile similar to that of an applicable underlying index. The securities selected are expected to have, in the aggregate, investment characteristics, fundamental characteristics and liquidity measures similar to those of an underlying index. The Fund may or may not hold all of the securities in the Index.

The Index is sponsored, created, compiled, and maintained by the Adviser. Wilshire Associates will be the calculation agent for the Index.

Under normal market conditions, the Fund invests at least 80% of its assets (defined as net assets plus borrowing for investment purposes) in credit bonds. Credit bonds are debt instruments in which an investor loans money to an entity which borrows the funds for a defined period of time at a variable or fixed interest rate. Typically credit bond include corporate bonds and other non-corporate bonds such as sovereign bonds, foreign agencies, and supranational entities. The Fund may invest the remainder of its assets in cash and cash equivalents. The Fund may concentrate its investments in a particular industry or group of industries to the extent that the Index concentrates in an industry or group of industries.

Please read the Fund's prospectus for more information regarding its investment objectives.

As described more fully in the Trust's prospectus and Statement of Additional Information, the Fund will issue and redeem Shares on a continuous basis at their net asset value ("NAV") only in large

blocks of 50,000 Shares (each, a “Creation Unit”). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or “ET”) of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Fund describes the various fees and expenses for the Fund’s Shares. For a more complete description of the Fund and the underlying Index, visit the Fund’s website at www.sageetfs.com

EXEMPTIVE, INTERPRETIVE AND NO-ACTION RELIEF UNDER FEDERAL SECURITIES REGULATIONS

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the "Act") regarding trading in the above mentioned exchange-traded Fund.

REGULATION M EXEMPTIONS

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or

purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

CUSTOMER CONFIRMATIONS FOR CREATION OR REDEMPTION OF FUND SHARES (SEC RULE 10B-10)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

SEC RULE 14E-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the

Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SECTION 11(D)(1); SEC RULES 11D1-1 AND 11D1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the Shares of the Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of the Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

SEC RULE 15C1-5 AND 15C1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)
