### BACKGROUND INFORMATION ON THE FUND

Strategy Shares (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"), consisting of several investment portfolios. This circular relates only to the Active Alts Contrarian ETF (the "Fund"). The shares of the Fund are referred to herein as "Shares." Rational Advisers, Inc. (the "Adviser") serves as the investment adviser to the Fund.

The investment objective of the Fund is to seek current income and capital appreciation.

The Fund seeks to achieve its investment objective by investing, directly or indirectly through other investment funds, in equity securities of domestic and foreign issuers traded on a U.S. exchange (including American Depositary Receipts ("ADRs")) that the Sub-Adviser believes may be subject to a "short squeeze", and in cash and cash equivalents, including affiliated and unaffiliated money market funds and investment grade short term fixed income securities such as U.S. Treasury securities. The Fund defines investment grade fixed income securities as those that are rated, at the time purchased, in the top four categories by a rating agency such as Moody's Investors Service, Inc. ("Moody's") or Standard & Poor's Ratings Group ("S&P"), or, if unrated, determined by Sub-Adviser to be of comparable quality. A "short squeeze" occurs when investors who have sold short shares of an equity security seek to rapidly cover or buy back the short position due to actual or perceived appreciation in the security, which may occur because of positive news or events related to the company, its market sector or the market generally. Often, the additional buying momentum created by short sellers covering their short positions escalates the increase in the price of the shares. The Fund may also lend portfolio securities that the Sub-Adviser believes may become, based on its analysis, subject to a short squeeze.

In selecting securities for the Fund's portfolio, the Sub-Adviser uses a proprietary investment process to identify equities that it believes have a higher potential for capital appreciation as a result of a short squeeze. The Sub-Adviser's process for identifying short squeeze opportunities involves analysis of both fundamental factors (e.g., quality of earnings, fundamental stability of business, etc.)

and technical factors (e.g., price and volume characteristics, relative strength, etc.). Using this analysis, the Sub-Adviser seeks to identify securities where, in the opinion of the Sub-Adviser, short interest is significant, is increasing or is expected to increase, but is unjustified based on the Sub-Adviser's analysis. The Sub-Adviser may also determine to lend out portfolio securities that the Sub-Adviser believes to be strong candidates for a short squeeze to short sellers and other market participants. The Fund will receive premium income in exchange for the securities it lends.

The Fund's portfolio may be more heavily focused in different sectors at different times depending on market conditions, and/or company, sector and industry outlooks. While the Fund is not limited with respect to its investments in any sector, the Fund limits investments in a single issuer to no more than five percent (5%) of the total assets of the Fund and to no more than five percent (5%) of the security's public float. In addition, the Fund will limit its equity investments to companies with a market capitalization of \$250 million or more.

In general, the Fund will acquire positions that the Sub-Adviser believes, based on its analysis of markets, companies and sectors, offer substantial potential for capital appreciation or the opportunity for income. Conversely, the Fund will generally sell positions when the Sub-Adviser believes the security has met its target price, the Sub-Adviser's outlook for a market, company or sector has changed, or the Sub-Adviser believes better opportunities are available. To the extent that the Sub-Adviser has not identified equities suitable for investment, the Fund will be invested in cash or cash equivalents, such as money market funds, and at times the Fund's investment in such investments may be significant. The Fund's equity securities allocation and cash and cash equivalents allocations may range from 0% to 100% of the Fund's portfolio, depending on the Sub-Adviser's current assessment of market value and risk.

The Fund is an actively managed ETF and thus does not seek to replicate the performance of a specific index. Instead, the Fund uses an active investment strategy in an effort to meet its investment objective. As a result of its trading strategy, the Fund expects to engage in frequent portfolio transactions that will likely result in higher portfolio turnover than many investment companies. Portfolio turnover is a ratio that indicates how often the securities in an investment company's portfolio change during a year. A higher portfolio turnover rate indicates a greater number of changes, and a lower portfolio turnover rate indicates a smaller number of changes. Under normal circumstances, the anticipated annual portfolio turnover rate for the Fund is expected to be greater than 100%.

For more information regarding the Fund's investment strategy, please read the prospectus for the Fund.

As described more fully in the Trust's prospectus and Statement of Additional Information, the Fund will issue and redeem Shares on a continuous basis at their net asset value ("NAV") only in large blocks of 25,000 Shares (each, a "Creation Unit"). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Fund describes the various fees and expenses for the Fund's Shares. For a more complete description of the Fund and the underlying Index, visit the Fund's website at [www.strategysharesetfs.com](http://www.strategysharesetfs.com).

regulations of the Securities and Exchange Commission (“SEC”). For further information about the Fund, please refer to the registration statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, BX Equity Rules 4420 and 4421, and PHLX Rule 803 require that members and member organizations, respectively, provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Trust for the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, members and member organizations shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by members or member organizations to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: “A circular describing the terms and characteristics of the Shares of the Fund has been prepared by the Trust and is available from your broker. It is recommended that you obtain and review such circular before purchasing Shares of the Fund. In addition, upon request you may obtain from your broker a prospectus for Shares of the Fund.”

Any BX or PHLX member or member organization carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to BX members and PHLX members or member organizations under this rule.

Upon request of a customer, BX members and PHLX members or member organizations shall provide a copy of the prospectus.

#### **EXEMPTIVE, INTERPRETIVE AND NO-ACTION RELIEF UNDER FEDERAL SECURITIES REGULATIONS**

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the “Act”) regarding trading in the above mentioned exchange-traded Fund.

#### **REGULATION M EXEMPTIONS**

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing

Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

#### **CUSTOMER CONFIRMATIONS FOR CREATION OR REDEMPTION OF FUND SHARES (SEC RULE 10B-10)**

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

#### **SEC RULE 14E-5**

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and

- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

#### **SECTION 11(D)(1); SEC RULES 11D1-1 AND 11D1-2**

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the Shares of the Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of the Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

#### **SEC RULE 15C1-5 AND 15C1-6**

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)
