BACKGROUND INFORMATION ON THE FUND

The Exchange Traded Concepts Trust (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), consisting of several investment portfolios. This circular relates only to the ETF Industry Exposure & Financial Services ETF (the “Fund”). The shares of the Fund are referred to herein as “Shares.” Exchange Traded Concepts, LLC (the “Adviser”) serves as the investment adviser to the Fund.

The Fund seeks to provide investment results that, before fees and expenses, track the total return performance of the Toroso ETF Industry Index (the “Index”).

The Fund normally invests at least 80% of its total assets in securities of the Index. The Index is designed to measure the performance of an investable universe of publicly-traded companies that directly or indirectly provide services or support to exchange-traded funds (“ETFs”), including but not limited to the management, servicing, trading or sale of ETFs (“ETF Activities”), as determined by Toroso Investments, LLC (the “Index Provider”).

Companies eligible for inclusion in the Index must have securities that are publicly-traded in the U.S. and must be engaged in ETF Activities. These companies may include, but are not limited to: ETF sponsors; asset managers; index providers; broker-dealers; securities exchanges; and service providers, such as custodians, transfer agents, and administrators. At the time of inclusion on the Index, each company must have a free-float adjusted market capitalization of \$200 million or greater and the three month average daily trading volume of its shares must be at least \$1 million.

Companies that are eligible for inclusion on the Index are reviewed by an index committee (the “Index Committee”). The Index Committee is responsible for reviewing publicly available information regarding each eligible company and placing each company into one of four tiers based on its review of such information, as follows:

Tier A includes companies whose participation in ETF Activities is substantial and results in direct financial impact to the company's shareholders, as determined in the sole discretion of the Index Committee. Such companies generally include investment advisers to and sponsors of ETFs but may also include companies that are engaged in other types of ETF Activities and derive substantial revenue from such activities or companies that are considered by the Index Committee to be an integral part of the ETF industry. Companies in Tier A constitute 50% of the Index weight at each time the Index is rebalanced.

Tier B includes companies whose participation in ETF Activities is substantial and results in indirect financial impact to the company's shareholders, as determined in the sole discretion of the Index Committee. Although such companies are considered by the Index Committee to play a meaningful role in the ETF industry, the revenues they derive from ETF Activities may be indirect or muted by revenues derived from other business activities. Companies in Tier B constitute 25% of the Index weight at each time the Index is rebalanced.

Tier C includes companies whose participation in ETF Activities is moderate and results in indirect financial impact to the company's shareholders, as determined in the sole discretion of the Index Committee. Such companies generally do not advise or sponsor ETFs and instead provide support services to participants in the ETF industry, and are considered by the Index Committee to play a moderate role in the ETF industry. Companies in Tier C constitute 15% of the Index weight at each time the Index is rebalanced.

Tier D includes companies that recently began to participate or have minor participation in ETF Activities where such participation results in indirect financial impact to shareholders, as determined in the sole discretion of the Index Committee. Such companies are newcomers or minor participants in the ETF industry and may already derive revenues from ETF Activities, and are generally considered by the Index Committee not to have made ETF Activities a business priority. Companies in Tier D constitute 10% of the Index weight at each time the Index is rebalanced.

In determining the tier in which a company will be placed, the Index Committee primarily considers a company's financial information but may also consider other publicly available non-financial information, such as a company's intangible assets and public statements made by a company's representatives.

Constituents within each tier are equally weighted at each rebalance of the Index, subject to a 9% maximum weight for any one constituent. The Index is reconstituted and rebalanced quarterly. Please read the Fund's prospectus for more information regarding its investment objectives.

The Fund uses a passive management investment strategy designed to track the performance of the Index. The Fund's sub-adviser, Penserra Capital Management LLC ("Penserra" or the "Sub-Adviser") generally will use a replication methodology, meaning it will invest in all of the stocks composing the Index in proportion to the weightings in the Index. However, the Sub-Adviser may use a sampling methodology under various circumstances where it may not be possible or practicable to purchase all of the stocks in the Index. The Fund expects that over time, if it has sufficient assets, the correlation between the Fund's performance, before fees and expenses, and that of the Index will be 95% or better. A figure of 100% would indicate perfect correlation.

The Fund will concentrate its investments (i.e., invest more than 25% its total assets) in a particular industry or group of industries to approximately the same extent that the Index concentrates in an industry or group of industries. As of the date of this Prospectus, the Index is concentrated in the financial services sector.

The Index Provider is not affiliated with the Fund, the Adviser, or the Sub-Adviser. The Index Provider developed the methodology for determining the securities to be included on the Index and for the ongoing maintenance of the Index. The Index is calculated and administered by Solactive AG, which is not affiliated with the Fund, the Adviser, the Sub-Adviser, or the Index Provider.

As described more fully in the Trust's prospectus and Statement of Additional Information, the Fund will issue and redeem Shares on a continuous basis at their net asset value ("NAV") only in large blocks of 25,000 Shares (each, a "Creation Unit"). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Fund describes the various fees and expenses for the Fund's Shares. For a more complete description of the Fund and the underlying Index, visit the Fund's website at www.tetfetf.com.

DELIVERY OF A PROSPECTUS

NASDAQ members, BX members and PHLX members and member organizations should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund.

Prospectuses may be obtained through the Fund's website. For further information about the Fund, please refer to the registration statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, NASDAQ Rules 5705 and 5740, BX Equity Rules 4420 and 4421, and PHLX Rule 803 require that members and member organizations, respectively, provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Trust for the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, members and member organizations shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by members or member organizations to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of the Shares of the Fund has been prepared by the Trust and is available from your broker. It is recommended that you obtain and review such circular before purchasing Shares of the Fund. In addition, upon request you may obtain from your broker a prospectus for Shares of the Fund."

Any NASDAQ, BX or PHLX member or member organization carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to NASDAQ members, BX members and PHLX members or member organizations under this rule.

Upon request of a customer, NASDAQ members, BX members and PHLX members or member organizations shall provide a copy of the prospectus.

EXEMPTIVE, INTERPRETIVE AND NO-ACTION RELIEF UNDER FEDERAL SECURITIES REGULATIONS

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the "Act") regarding trading in the above mentioned exchange-traded Fund.

REGULATION M EXEMPTIONS

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

CUSTOMER CONFIRMATIONS FOR CREATION OR REDEMPTION OF FUND SHARES (SEC RULE 10B-10)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);

- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

SEC RULE 14E-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SECTION 11(D)(1); SEC RULES 11D1-1 AND 11D1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the Shares of the Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of the Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

SEC RULE 15C1-5 AND 15C1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)
